RGB Color Space

The physical printing is different than the render that is displayed on your screen. If you have a graphical chart, please provide it to us with the associated color codes in RGB. Our team will adjust the design in consequence.

For any additional demand, do not hesitate to contact us: contact@wolf-id.com

Monochrome

In order for your design to be printed in Monochrome, it needs to be done only with pure black (000000).
